Subject Index

No. 1, January 2004, 1–81
No. 2, February 2004, 82–159
No. 3, March 2004, 160–238
No. 4, April 2004, 239–318
No. 5, May 2004, 319–398
No. 6, June 2004, 399–478
No. 7, July 2004, 479–558
No. 8, August 2004, 559–638
No. 9, September 2004, 639–718
No. 10, October 2004, 719–810
No. 11, November 2004, 811–890
No. 12, December 2004, 891–970

A

Accessing health care: responding to diversity (Healey & McKee) 882
acquired immune deficiency syndrome *see* AIDS
adherence, fixed-dose combination pills *vs* unit-of-use packaging 935–939
Advances in insect chemical ecology (Cardé & Millar) 955
adverse events
  health care-related, global campaign 889, 892
  immunization-related, reporting in Europe 828–835
advocacy, patient, and arthritis 115–120
affective disorders, treatment gap 858–866
Afghanistan
  health-care services 712–713
  latrine revision programme 281–289
Africa
  3-by-5 initiative for HIV/AIDS 77–78
  antiretroviral treatment scale-up 798–800
  averting a malaria disaster 381–384
  compensation for medical brain drain 633
  gender issues in HIV/AIDS control 812
  HIV serostatus disclosure among women 299–307
  insecticide-treated nets for malaria control 84, 85–91, 884–886
  natural history of HIV infection in adults 462–469
  polio cases 394, 557, 717
  polio immunization campaign 237–238, 890
  projected diabetes burden 397–398
  secondary prevention of stroke 503–508
  sexual abuse of women and children 313
  WHO Regional Director 717–718, 809
ageing, population *see* population ageing
aid, international *see* international aid
AIDS
  3-by-5 initiative for developing countries 77–78, 474–476
  de-listing of approved generic drugs 633, 718
  drug therapy *see* antiretroviral therapy
  international conference 713
  natural history in adults in Africa 462–469
  new initiative involving UN and broadcasters 232–233
  red ribbon banned in Zimbabwe 633
  treatment and prevention 400
  treatment programme in South Africa 73–74
  vaccine *see* HIV, vaccine
  see also HIV
AIDS International Training and Research Program (AITRP) 616–623
albendazole, mass treatment in Brazil 563–571
alcohol-related problems
  in developing countries 641
  treatment gap 858–866
alternative medicines, guidelines 635–636
Americas
  laboratory diagnosis of measles 852–857
  mental health care treatment gap 858–866
  progress towards measles eradication 134–138
  vaccination campaign 398
antenatal care
  syphilis detection and management *see* pregnancy, syphilis during
  in Thailand 746–749
anthelminthic therapy
  children in Cambodia 636
  mass treatment in Brazil 562, 563–571
The anthrax letters: a medical detective story (Cole) 71–72
anti-hypertensive therapy, stroke survivors in southern Africa 503–508
anti-tuberculous drugs
  DOTS, in China 716
  free, for developing countries 79
  public–private mix for DOTS implementation 580–586
  spread of resistance in Europe and Asia 313
antibiotics (antimicrobials)
  for childhood illness, training health workers 509–515
  maternal syphilis 401, 433–438
  resistance containment and surveillance approach 928–934
antimalarial drugs
  costs of effective, in Africa 381–384
  see also artemisinin combination therapy
antiretroviral therapy
  de-listing of approved generic drugs 633, 718
  feasibility of scale-up, in Africa 798–800
  preparedness 959
  survival of HIV-infected adults in Africa and 462–469
anxiety disorders, treatment gap 858–866
Argentina, residual spraying against *Triatoma infestans* 196–205
Arrow, Kenneth, and birth of health economics 139–140
artemisinin combination therapy (ACT)
  barriers to implementation 237, 473
  economics in Africa 381–384
  supply problems 959
arthritis, patient advocacy and 115–120
Asia, drug-resistant TB 313
asthma, in early childhood, in Brazil 516–522
Australia, nurse migration to 587–594

B

Bangladesh, community participation in health impact assessment 881
BBC television, series on developing-country diseases 473
BCG vaccine
  duration of protection 555
  in leprosy scenario analysis 373–380
Bill and Melinda Gates Foundation 718
bipolar disorder, treatment gap 858–866
birth interval, infant and child mortality and, in Burkina Faso 265–273
blindness
  glaucoma-related 887–888
  global data for 2002 844–851
blood supplies, safe, in developing countries 558
Bolivia
  antenatal syphilis control programme 410–416
  medicinal plant and pharmaceutical use by indigenous communities 243–250
books and electronic media
  Accessing health care: responding to diversity (Healey & McKee) 882
  Advances in insect chemical ecology (Cardé & Millar) 955
  The anthrax letters: a medical detective story (Cole) 71–72
  Child public health (Blair *et al*) 150
  Circles of recovery: self-help organizations for addictions (Humphreys) 390
  Continent of mothers. Continent of hope. Understanding and promoting development in Africa today (Skard) 71
  Ethical and regulatory aspects of clinical research: readings and commentary (Emanuel *et al*) 551
  Evidence-based public health (Brownson *et al*) 308

Food fight: the inside story of the food industry, America's obesity crisis, and what can be done about it (Brownell & Horgen) 308–309
Global public health: a new era (Beaglehole) 150–151
Guide de gestion des mutuelles de santé en Afrique (International Labour Organization) 953
Health impact assessment: concepts, theory, techniques and applications (Kemm *et al*) 954
ICF illustration library 550–551
Immunization essentials: a practical field guide (USAID) 709
Immunization financing in developing countries and the international vaccine market: trends and issues (Asian Development Bank) 710–711
Manual of basic techniques for a health laboratory, 2nd edition (WHO) 229
Reproductive health and human rights: integrating medicine, ethics and law (Cook *et al*) 549
Terrorism and public health: a balanced approach to strengthening systems and protecting people (Levy & Sidel) 72
The vaccine book (Bloom & Lambert) 709–710
Botswana, polio case 394
brain drain 797–798
compensation for African countries 633
health-care workers 560, 595–600, 601–607
nurses 587–594
strategies to discourage 608–615, 616–623
Brazil
counters to brain drain 608–615
decentralization and health system performance 822–827
ivermectin mass treatment 563–571
leptospirosis bacterium genome 471–472
poliovirus carrier status in primary immune deficiency disorders 3–8
training health workers to use antimicrobials in childhood illness 509–515
wheezing conditions in early childhood 516–522
breastfeeding
HIV-infected mothers 161
promotion and protection 318
bronchiolitis, childhood, global incidence 895–903
burden of disease
diabetes in Africa 397–398
pneumonia in young children 895–903
respiratory syncytial virus infection 914–922
typhoid fever 346–353
visual impairment 844–851
Burkina Faso
enhancing utilization of health-care services 572–579
infant and child mortality risk factors in rural 265–273
insecticide-treated nets for malaria control 85–91
rare strain of meningitis 398
Byrne, David 889

C

Cambodia
control of helminthic infections in children 636
immunization through public–private partnership 661–667
simplified screening for thalassaemia and haemoglobin E 364–372
Cameroon, coverage and costs of childhood immunizations 668–675
cardiovascular disease
in developing countries 470–471
mortality in Russian Federation 875–880
caregivers, quality of life, in China 493–502
Caribbean region
international aid after hurricane devastation 883–884
TRIPS agreement and public health 815–821
cataract
global data for 2002 844–851
surgery, cost-effectiveness analysis 338–345
cause of death
reporting in developing countries 83
trends and ICD coding changes 904–913
young motherhood as, in developing countries 473
ceftriaxone, maternal syphilis 433–438
cerebrovascular accident *see* stroke
Chagas disease, residual spraying against *Triatoma infestans*, in Argentina 196–205
chemicals, and child health 814
child health
chemicals and 814
environment-related hazards 558
in south-eastern Europe 539–546
child mortality
insecticide-treated nets for malaria control and 85–91
latrine revision programme and, in Afghanistan 281–289
Millennium Development Goals 156–157, 804
pneumonia 895–903
risk factors in rural Burkina Faso 265–273
Child public health (Blair *et al*) 150
childbirth, as cause of death in girls in developing countries 473
children
development of new growth standards 718
hand-washing education 631–632
immunization
costs of delivery, in Peru 676–682
coverage and costs, in Cameroon 668–675
financial challenges 697–702
through public–private partnership, in Cambodia 661–667
obesity and type 2 diabetes 959
pneumonia incidence 895–903
respiratory syncytial virus infection 914–922
sexual abuse in Africa 313
training health workers to use antimicrobials 509–515
wheezing conditions in young, in Brazil 516–522
zinc as adjunct therapy for diarrhoea 523–531
see also infants
China
attitudes to family-planning services for unmarried young people 274–280
counters to brain drain 608–615
herbal treatment for jaundice 154
public health-care system 480, 532–538
quality of life in chronic disease and caregivers 493–502
SARS cases 79, 152–153, 394, 470
tuberculosis control using DOTS 716
chlamydia infections
effectiveness of condoms in preventing 454–461
women in rural Peru 483–492
chronic disease
dependency and dependency ratios worldwide 251–258
mortality in Russian Federation 875–880
new global strategy 556
quality of life, in China 493–502
in south-eastern Europe 539–546
Circles of recovery: self-help organizations for addictions (Humphreys) 390
circumcision, prevention of HIV infection 394–395
civil society organizations (CSOs), participation in health research 757–763
clefts, orofacial, association with maternal smoking in pregnancy 213–218
climate change
and human health 79
mortality effects 481
clinical trials
James Lind's paper on scurvy 791–796
registration 321, 397, 714
without ethical review, in India 314
cloning, human, proposed UN treaty 76
Cochrane Collaboration 778–783
communicable diseases
antimicrobial resistance containment and surveillance approach 928–934
economics of eradication *vs* control 683–688
Millennium Development Goals 156–157, 804–805
in south-eastern Europe 539–546
community participation, in health impact assessment 881
compliance, fixed-dose combination pills *vs* unit-of-use packaging 935–939
condoms
contraceptive effectiveness within marriage 180–186
prevention of sexually transmitted infections 454–461
consent, informed, in developing countries 771–777
Continent of mothers. Continent of hope. Understanding and promoting development in Africa today (Skard) 71
contingent valuation survey, demand for AIDS vaccine, in Uganda 652–660
continuing medical education (CME), in India 154–155
contraception
within marriage, condoms *vs* oral contraceptives 180–186
for unmarried young people, attitudes in China 274–280
cost-benefit analysis, health research 733–739
cost-effectiveness analysis
cataract surgery 338–345
latrine revision programme, in Afghanistan 281–289
strategies to increase immunization coverage 689–696
supplementary tetanus immunization, in Pakistan 643–651
zinc therapy for childhood diarrhoea 523–531
cost sharing (user fees)
and demand for AIDS vaccine, in Uganda 652–660
discontinuation in Uganda 187–195

costs
childhood immunization in Cameroon 668–675
delivery of routine immunization, in Peru 676–682
effective antimalarial drugs in Africa 381–384
post-polio certification immunization policies 9–15
strategies to increase immunization coverage 689–696
cotrimoxazole
prophylaxis for infants exposed to HIV infection 290–298
prophylaxis in HIV-positive TB patients in Malawi 354–363
cross-sectoral cooperation, in public health 322

D

Danzon, Dr Marc 809–810
Darfur region of Sudan *see* Sudan, Darfur region
DDT, for malaria control 472–473
death certification, and cause-of-death reporting, in developing countries 83
decentralization and health system performance, in Brazil 822–827
deltamethrin
residual spraying against *Triatoma infestans*, in Argentina 196–205
topical mass treatment, in Brazil 563–571
demographic trends *see* population ageing
Denmark, ICD coding changes and cause-specific mortality trends 904–913
dependency and dependency ratios, global trends 251–258
depression, treatment gap 858–866
developed countries
economics of disease eradication *vs* control 683–688
migration of health-care workers to 560, 595–600, 601–607, 634, 797–798
nurse migration to 587–594
strategies to discourage brain drain 608–615, 616–623
see also Group of Eight (G-8) countries
developing countries
AIDS/HIV 3-by-5 strategy 77–78, 474–476
BBC series on diseases 473
brain drain counter strategies 608–615, 616–623
cardiovascular disease 470–471
condom use within marriage 180–186
death certification and cause-of-death reporting 83
earmarked donor funding 703–708
economics of disease eradication *vs* control 683–688
economics of vaccination 640, 689–696
financial challenges of immunization and GAVI 697–702
free anti-TB drugs 79
genital herpes and HIV infection 447–453
global public goods concept of genomics knowledge 385–389
health expenditure 957–958
health research in *see* research (and development), in developing countries
HIV serostatus disclosure among women 299–307, 552
immunization through public–private partnership 661–667
implementing "know–do" gap 723, 724–732
information technology in primary health care 867–874
migration of health-care workers from 560, 595–600, 601–607, 634, 797–798
Millennium Development Goals *see* Millennium Development Goals
non-communicable diseases 556
non-profit initiatives tackling neglected diseases 395–396
nurse emigration 587–594
obesity and socioeconomic status 940–946
oral diseases 238
pneumonia in young children 895–903
regulatory pathways for vaccines 128–133
safe blood supplies 558
substance use problems 641
TRIPS agreement and 813, 815–821
vaccine-associated paralytic polio 53–58
young motherhood as cause of death 473
zinc as adjunct therapy for childhood diarrhoea 523–531
diabetes
childhood obesity and 959
projected burden in Africa 397–398
diabetic retinopathy, global data for 2002 844–851
diarrhoea
hand-washing for prevention 631–632
latrine revision programme, in Afghanistan 281–289
zinc as adjunct therapy, in developing countries 523–531
dichlorophenolindophenol (DCIP) precipitation test, thalassaemia and haemoglobin E screening 364–372
diet, new global strategy 478, 556
disability, global dependency and dependency ratios 251–258
doctors
compensation for brain drain of African 633
migration from developing countries 595–600
migration patterns in 1970s 624–630
drug misuse, in developing countries 641
drugs
fixed-dose combination *vs* unit-of-use packaging 935–939
microbial resistance 928–934
priority needs 959
research, health care benefits *vs* commercial return 74–75
role of patents in R&D 784–790
TRIPS agreement and 813, 815–821
use by indigenous communities in Bolivia 243–250
dysentery, zinc as adjunct therapy, in developing countries 523–531
dysthymia, treatment gap 858–866

E

e-Health 800–802
Eastern Mediterranean, religion-based tobacco control 894, 923–927
economic development
Millennium Development Goals and 947–952
obesity and socioeconomic status and 940–946
economics
antimalarial drugs in Africa 381–384
Arrow's 1963 paper 139–149
childhood immunization in Cameroon 668–675
congenital syphilis prevention 402–409
demand for AIDS vaccine, in Uganda 652–660
discontinuation of cost sharing in Uganda 187–195
earmarked donor funding 703–708
global infectious disease policies 683–688
global international aid priorities 554–555
health research 733–739
immunization and GAVI 697–702
vaccination, in developing countries 640, 689–696
see also cost-effectiveness analysis; costs
education
to counter brain drain 608–615
hand-washing, for children 631–632
health researchers in developing countries 764–770
elderly, expanding population, in Lebanon 219–225
environment
change *see* climate change
child health and 558
and health 322
epilepsy 889
EQ-5D questionnaire, factors predicting score, in South Africa 206–212
equity
genomics knowledge 385–389
immunization through a public–private partnership, in Cambodia 661–667
issues in health research 740–745
Ethical and regulatory aspects of clinical research: readings and commentary (Emanuel *et al*) 551
ethics
clinical trials without ethical review, in India 314
informed consent in developing countries 771–777
MMR safety controversy 311–312
Europe
centre for disease control 233
drug-resistant TB 313
health in south-eastern 539–546
HIV epidemic 310–311
ICD coding changes and cause-specific mortality trends 904–913
measles outbreaks 889–890
mental health care treatment gap 858–866
patient evaluations *vs* WHO measures of achievement 106–114
reporting of adverse events following immunization 828–835
WHO Regional Director 809–810
Evans, Dr Timothy 956–957
evidence-based medicine
antenatal care in Thailand 746–749
Cochrane Collaboration 778–783
implementation in clinical practice 724–732
James Lind's paper on scurvy 791–796
Evidence-based public health (Brownson *et al*) 308
eye hospitals, rubella serosurveys of female staff, in India 259–264

F

family-planning services for unmarried young people, attitudes in China 274–280
female genital mutilation, strategy against, in Mali 153–154
filariasis, control by ivermectin 562

financing
AIDS programmes 713
China's health-care system 480, 532–538
health-care services in Afghanistan 712–713
health research in developing countries 764–770
immunization and GAVI 697–702
infectious disease eradication *vs* control 683–688
Millennium Development Goals 947–952
resource allocation and earmarked donor funding 703–708
Finland, ICD coding changes and cause-specific mortality trends 904–913
Fogarty International Center 616–623
Food fight: the inside story of the food industry, America's obesity crisis, and what can be done about it (Brownell & Horgen) 308–309
food safety, "five keys" strategy 889
Framework Convention on Tobacco Control 635
France, changes to health care system 232
freezing, hepatitis B vaccine, in Indonesian cold chain 99–105

G

gender
equity of health research and 162, 740–745
inequalities, and HIV/AIDS control 812
obesity and socioeconomic status and 940–946
see also women
genital herpes
effectiveness of condoms in preventing 454–461
and HIV infection 447–453
genomics
global public goods perspective 385–389
leptospirosis bacterium 471–472
glaucoma
global data for 2002 844–851
